

RESTRICTED BREEDS

We love your furry friends and we know you do too! We are proud to say all Wasatch Communities are pet friendly.

Due to the fact that some breeds of dogs do better in apartment living than others do, a list of Restricted Breeds has been compiled by an organization of veterinarians and multifamily representatives. Wasatch Communities wants the best for your pets so we rely on the experts. Veterinarians have factored in such traits as energy levels, noise, personality behaviors and other character traits when determining this list.
